

'The Winning Feeling'

... the way it feels when you own a CPI X-ray generator.

Performance. Reliability. Support.
When they all come together –
you're a winner.

And that's exactly what you get with a
CPI generator.

***Radiographic and fluoroscopic
generators (100 kHz technology)
that operate at 30 to 80 kW power
levels and exceed your expectations
every time.***

They arrive at your door fully-tested,
and configured to your specifications.
And the 'laptop-based' GenWare™
software makes set-up extremely
fast & easy.

Best-in-Class year after year. They
outperform the competition every time –
and reward their owners with sheer
added value!

And we'll be there for you long after the
others have come and gone.

Aren't you glad you chose CPI!

The CPI Indico 100® series

Simply the best.
